Produce provided in your farm share is determined on the success and maturity of the crop being grown. Remember: Stults Farm does not buy produce for your farm share. Every fruit & vegetables in your basket is grown by Stults Farm!

## **“WE ONLY SELL WHAT WE GROW”**

To help you to determine which share best suits your family, here is an example of a weekly share in the beginning of the season:

**Full share example:**

\*8 ears corn  
1 Bag Lettuce  
3 Bell Peppers  
1 Box blackberries  
4 cucumbers

**1/2 share example:**

\*4 ears of corn  
1 Bell pepper  
1 Box blackberries  
2 zucchini  
1 cucumber

**\*Please note that sweet corn is a stable food at Stults farm. During the season, sweet corn will be included each week. The amount for the full shares will be 8 ears of corn per week and the amount of corn for a half share will be 4 ears of corn per week. \***

Here is an example of the shares during the height of the growing season:

**Full share example:**

8 ears corn  
3 lb. tomatoes  
2 zucchini  
4 lb. of potatoes

**1/2 share example:**

4 ears corn  
2 lb. tomatoes  
4 lb. potatoes

As the bounty of summer flourishes and higher dollar value produce becomes available, it may seem that the weekly quantity in your basket is lesser compared to the beginning of the season, so remember that your designated dollar value for the weekly produce still remains the same.
